

Library News by Bev Weaver

Thanks to Sandy Hutton for donating to the PPWG library *Peter Collingwood: Master Weaver*, a book based on an exhibition of Collingwood's work in 1998. It includes an interview with Peter, photos of his weaving, and other commentary.

Sandy had also donated the DVD of a recent Peter Collingwood interview that we watched at the January meeting. It was very interesting to hear Peter talk about his books, his early interest in textiles, and his weaving experiences. This DVD is available to be checked out if you would like to see it again.

We have the following books by Peter in our library:

The Techniques of Rug Weaving. This is the ultimate resource for rug weavers.

Rug Weaving Techniques: Beyond the Basics. Peter's shaft switching technique is explained in this book.

The Maker's Hand: A Closer Look at Textile Structures. This book contains precise descriptions of textile construction.

We also have in our library the following book and video:

Shuttlecraft Guild Monograph #8: Peter Collingwood – His Weaves and Weaving.

Rug Weaving; Block Weaves and Shaft Switching (VHS) – with Jason Collingwood. This video presents the class material taught by Jason based on his father's studies.

Peter also wrote the following books (which are not in our collection):

The Techniques of Ply Split Braiding

The Techniques of Sprang – Plaiting on Stretched Threads

The Techniques of Tablet Weaving
